

## Install Annif: Linux native install

# Install Annif natively on a Linux system

- Best for experienced Linux users
- It helps if you're familiar with installing Python packages

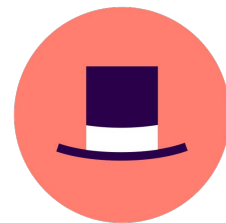

## Further instructions

Annif README file:

<https://github.com/NatLibFi/Annif/blob/master/README.md>

Annif wiki:

<https://github.com/NatLibFi/Annif/wiki>

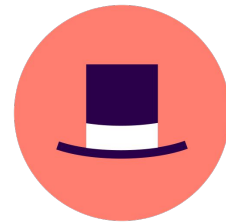

# Check your Python version

Annif requires Python **3.6**, **3.7** or **3.8**

Ubuntu 16.04 Xenial	Python 3.5	Too old!
Ubuntu 18.04 Bionic	<b>Python 3.6</b>	<b>OK</b>
Ubuntu 20.04 Focal	<b>Python 3.8</b>	<b>OK</b>
Debian 9 Stretch	Python 3.5	Too old!
Debian 10 Buster	<b>Python 3.7</b>	<b>OK</b>
RHEL/CentOS 8	<b>Python 3.6</b>	<b>OK</b>

# Demonstration: Xubuntu 20.04 virtual machine

...but you can use any Linux distribution

If you're not using Ubuntu or Debian, installing system packages might be different.
