

annif tutorial

Install Annif: usage in VirtualBox

VirtualBox

- Software for running virtual machines on a host computer
 - E.g. Linux on Windows or MacOS host
- Virtual machine can be saved as an image (a group of files)
- For running the machine image with Annif the VirtualBox software needs to be installed on your computer, see e.g. www.virtualbox.org
 - Basic install is enough

By Oracle Corporation - This image may be found in VirtualBox 4.2 for Windows hosts, GPLv2, <https://commons.wikimedia.org/w/index.php?curid=24112652>

Annif with VirtualBox image

- Image based on Xubuntu 20.04 (one Linux distribution) with ready-to-use Annif and the files needed for this tutorial:
annif.org/download/annif-tutorial-vbox-2021.zip (~2 GB)
- Easy way to test Annif and complete the tutorial

The screenshot shows a web browser window with the address bar displaying `https://annif.org/download/`. The page content includes a heading "This directory contains downloadable files related to Annif." followed by a table with columns for Name, Last modified, Size, and Description. The table lists a "Parent Directory" link and two zip files: "annif-tutorial-vbox-2020.zip" (2.1G) and "annif-tutorial-vbox-2021.zip" (2.0G). At the bottom, it says "Apache/2.4.29 (Ubuntu) Server at annif.org Port 80".

	<u>Name</u>	<u>Last modified</u>	<u>Size</u>	<u>Description</u>
	Parent Directory		-	
	annif-tutorial-vbox-2020.zip	2020-09-15 15:50	2.1G	
	annif-tutorial-vbox-2021.zip	2021-04-20 13:00	2.0G	

Apache/2.4.29 (Ubuntu) Server at annif.org Port 80

Troubleshooting

In case of the following error after any Annif command

Illegal instruction (core dumped)

see the exercise page for how this can be solved.
